Industrial Electrical Labeller

Dedicated functions for Electrical label applications and easy to create durable labels for faceplates, cables, consumer units and other electrical and datacom installations.

- Large backlight graphic display
- Industry standard barcode compatible
- Dedicate function keys to easily create labels
- Includes tape cassette, Li-ion Battery, AC adapter and Touch carrying case
- Prints 3.5, 6, 9, 12 & 18mmlaminated labels
- Prints on the new Heat Shrink tubes
- Over 300 Electrical and Datacom symbols

LABELS THAT STICK.

P-touch

The P-touch E300VP can use the new Heat shrink tube tape in addition to the durable TZE or HGe laminated tapes.

P-touch E300VP

The P-touch E300VP is an indispensable tool for all electricians and datacom installers. It comes complete with a lithium-ion rechargeable battery and AC adapter, all housed in a durable carry case. The large backlit graphic LCD, standard Qwerty style keyboard and specialised functions have been developed to make industrial labelling tasks efficient and easy. Use PT-300VP to leave a professional impression by creating high quality labels for your installations.

Prints 3.5 to 18mm in TZe Hge tape width
Print 5.8 to 17.7mm in HSe tube width

Face plate
Label socket outlets, network points and telephone extension faceplates for quick identification.

Cable wrap : Cable flag
Identify cables quickly with easy-to-read labels.

9 barcode protocols
Include barcodes for added security and safety.

Large backlit graphic LCD
Easy to view symbols and preview for your label before printing.

Patch Panel
Create perfectly sized port identification labels.

Sequential numbering
Print labels containing a sequence of numbers or letters.

384 built-in symbols
Includes common electrical, datacom, AV, security and safety symbols.

P-touch laminated labels – designed to last

Brother P-touch laminated TZe tapes are available in many different colours and sizes. The thermal transfer ink is sandwiched between two protective layers of PET (polyester film), protecting the text against the effects of liquids, abrasion, extreme temperature, chemicals and sunlight. As the labels have been tested to the extreme, you can be confident of a professional quality label that has been designed to last.
